| Short overview of your organisation (key activities, experience) | <p>Established in 2002, Carlow County Development Partnership CLG (formerly Carlow LEADER Company) is the Local Development Company for Carlow, a rural region in the South East of Ireland. We are strategically positioned to deliver client centred sustainable results for and with rural communities. Managing a portfolio of publicly funded rural and community development programmes, we also work with private sector companies to progress elements of their corporate social responsibility strategy. Working in a region with a population of 58,000 people, we develop and deliver processes and solutions to address the socio-economic and environmental challenges facing communities and individuals..</p> <p>Our overall strategic focus has 3 inter-related strands namely, sustainable economic development, sustainable community development and labour market activation, and is underpinned by a</p> |

| | <p>€3.5million p/a annual turnover.</p> <p>Our local development strategy is progressed through the implementation of a range of programme frameworks, including the LEADER Programme. A community led local development methodology underpins our strategic focus and as such, we engage extensively in animation, capacity building and empowerment of rural communities.</p> <p>Our intervention model is focused on securing and maximising the impact of public and private investment in the local economy by delivering a responsive client centred service which delivers demand led results for communities while maintaining high standards in corporate governance, accountability and risk management.</p> |
| Description of the project | |
| Strand, Measure in the framework of “Europe for Citizens” Programme (e.g. European Remembrance; Civil Society Project; Town Twinning)? | Civil Society Project - Democratic engagement and civic participation |
| Timetable of the project | Up to the 31st of August 2020 |
| Short description of the project, including its aims | <p>PROJECT NAME</p> <p><u>P</u>roject for <u>A</u>ctive <u>C</u>itizenship for the <u>E</u>nvironment and <u>S</u>ustainability (PACES)</p> <p>PROJECT RATIONALE</p> <p>Our pre-development work with rural communities in Carlow has highlighted that communities do not fully understand why the European Union has taken a particular stance on a matter which is of great importance to them. For example, questions typically asked by rural citizens can include;</p> <ul style="list-style-type: none"> • <i>We know the EU is serious about tackling climate change and protecting our environment but are rural dwellers going to experience greater disadvantage because of restrictions and tariffs?</i> |

- *How can we contribute to a sustainable environment when the EU has not put arrangements in place for proper cycle lanes, electric car charging points in our community?*
- *Who decides to classify an area as a SAC when **we** know this decision will restrict development in rural areas?*
- *Why are the EU planning to put restrictions on the use of certain products without having alternatives in place?*
- *What are the EU's main goals and what are its future priorities ?*
- *How can my MEP support our community to articulate our frustrations around EU policy?*

In a sentence, rural communities in Carlow have told us that they want to contribute to protecting their local environment and resources but are not confident on what **SHOULD** be done, what **CAN** be done and what are the **PRIORITIES**?

PROJECT AIM

PACES aims to create a space for rural communities to engage in dialogue which will **facilitate, educate** and **deepen** citizens understanding of the European Union's policy making processes, in particular those processes that focuses on **Climate Action, Sustainability** and the **Environment**. PACES also seeks to empower citizens to **participate** in, **progress** and **influence** Climate, Sustainability and Environment related policies at local, national and European levels.

THE CHALLENGE

PACES seeks to build a 'bridge of understanding' between rural communities and the European Union by strengthening their existing, but **disjointed relationship**, particularly in the context of the **2030 Climate and Energy Framework** and other

| | |
|--|--|
| | <ul style="list-style-type: none"> • Citizens will know how to be more active in national and EU decision making, • Citizens will learn to apply a ‘think global but act local’ methodology, • Citizens will have a better understanding of how communities in other member states are responding to common challenges and harnessing common opportunities, • Citizens will be better equipped to work together to access EU and national supports and funding to implement innovative sustainable environmental projects at local level. <p>TRANSNATIONALITY</p> <p>PACES will embrace transnationality by encouraging co-operation by way of an inter-territorial partnership which will enable citizens participating in the project exchange ideas with citizens from other communities, the EU’s institutions and with other interested parties.</p> <p>The project will also utilise existing relationships and networks to disseminate project results across the European Union. In particular, ECOLISE, the European network for community-led action on climate change and sustainability, but also other networks, such as the European Network for Rural Development (ENRD).</p> <p>Volunteerism</p> <p>The project will use volunteers to develop meaningful opportunities for mutual understanding on how decision making processes can contribute to sustainable results across the local Environmental Agenda, including reducing carbon emissions, sustainable management of bio-diversity and identifying optimal responses to counter the erosion of the natural environment. PACES will consider engaging with the European Solidarity Corps to further promote and embed the volunteer movement a key element of citizen engagement.</p> <p>Transfer of lessons learned</p> <p>To increase the value of the project to the Europe-</p> |

| | |
|---|--|
| | <p>an Union the project will be underpinned by horizontal themes of evaluation, dissemination and transfer of lessons learned by using a range of dissemination and communication tools.</p> <p>Project Scale and Budget</p> <p>The project will have a total of 4 partners, of which one will be Carlow Development Partnership. The second partner will be ECOLISE, a European Network for Community Led Initiatives on Climate Change and Sustainability. ECOLISE will be responsible for the dissemination strategy underpinning PACES.</p> <p>Carlow Development Partnership and two of the partners (not ECOLISE) will work with at least 300 participants each, generating a total of 900 participants for the project. Each partner will be required to implement a suite of agreed community led actions.</p> <p>The budget for each partner will be agreed as part of the collaborative planning process.</p> <p>Expressions of interest should be made before the 31st of July, 2019.</p> |
| Role of the partner organisation in the project | <p>Carlow County Development Partnership CLG will be the lead partner for this project.</p> <p>The other partners will implement an agreed programme of community led actions in their respective territories.</p> |
| Any other comments | <p>Partners with a proven 'bottom up' community development track record, LEADER ethos and /or community led local development methodologies are welcome.</p> <p>Partners involved in sustainable rural development and the LEADER programme are also welcome.</p> |

| | |
